FORECAST AND ANALYSIS OF CALIFORNIA NEW LIGHT VEHICLE MARKET

California New Vehicle Market Continues to Post Impressive Gains

New light vehicle registrations in California exceeded one million units during the first six months of 2015 and improved 11.5 percent versus the first half of 2014. The market was up an impressive 105 percent from the recessionary low-point in 2009. The combination of strong consumer affordability, pent-up-demand, and perhaps most importantly, the impressive array of advanced technologies being offered on new cars and trucks continues to boost the state's new vehicle market. The momentum should continue into 2016, as well. Registrations for all of this year are expected to approach two million units, with another increase likely in 2016. Other key trends in the state market:

- ❑ Among the top 15 selling brands, Jeep, Subaru, Mazda, Lexus, Chevrolet, and Mercedes had the biggest percentage increases during the first six months of 2015 (see page 2).
- ❑ Passenger car registrations increased 7.3 percent in the first half of this year, while market share fell 2.3 points. Light truck registrations improved 18.4 percent.
- ❑ Used vehicle registrations increased by less than one percent. Three year old or newer vehicles were up 13.8 percent.

Hybrid and Electric Vehicle Market Share

| Hybrid and Electric New Vehicle Registrations and Market Share | | | | | |

BRAND SCOREBOARD

Detailed Results for All Brands in California Market

The table shows new light vehicle registrations in California, including retail and fleet transactions. Please keep in mind that monthly registration figures can occasionally be subject to fluctuations, resulting in over or under estimation of actual results. This usually occurs due to processing delays by governmental agencies. For this reason, the year-to-date figures will typically be more reflective of market results. The top 10 ranked brands in each percent change category are shaded green.

RETAIL MARKET RECAP

New Retail Registrations in California Increase 10 Percent in First Half; Fleets Are Up 20.7 Percent

As shown on the graph below, retail vehicle sales in California have been heading straight up during the past five years, but the fleet market has also improved this year. New fleet registrations increased 20.7 percent during the first six months of 2015, while the retail market was up 10.0 percent.

The table below summarizes new retail light vehicle market results during the first six months of 2014 and 2015. (Note: the information presented includes retail registrations only, and excludes fleet transactions.) The Southern California retail market increased 9.8 percent, while Northern California was up 10.2 percent.

TRACKING THE CALIFORNIA USED VEHICLE MARKET

Used Vehicle Market Posts Small Increase

Comparison of California New and Used Vehicle Markets
Percent change in registrations (YTD 2015 thru June vs. YTD 2014)

Source: IHS Automotive

California Quarterly New and Used Retail Registrations
(used only includes vehicles 6 years old or newer)

Source: IHS Automotive

Below is a list of key trends in the California used vehicle market:

- ▶ Used registrations in the state were up a slim 0.9 percent in the first half of this year versus a year earlier.
- ▶ The California new vehicle market continued to post larger percentage gains. New registrations increased 11.5 percent so far this year. As shown on the graph below left, new vehicle registrations have remained well above six-year old used registrations.
- ▶ Used car registrations were up 0.9 percent, while light trucks increased 0.8 percent. Korean brand used registrations improved 17.8 percent.
- ▶ The three year old or newer market was up 13.8 percent, while the four to six year old market fell 6.6 percent.
- ▶ Toyota Camry, Honda Civic, Nissan Altima, Toyota Corolla, and Honda Accord were top sellers in the state's six year old or newer used vehicle market (see page 6).
